Summary

1. This guidance is for all interested independent training providers, employer led providers, third sector training providers, local authority providers, adult and community learning providers, 16-19 academy converters and university technical colleges that wish to opt-in and register for the third round of Taking Teaching Further, which will commence from April 2020. The programme aims to support Further Education (FE) providers to recruit people with industry experience to retrain as FE teachers by making funding available to providers to cover the costs of a new recruit undertaking a level 5 teaching qualification and having reduced classroom time in the first year of teaching while they learn. FE providers can draw down up to three places with funding of £18,200 per place and **registration to participate opens on 1 April 2020**. Places will be allocated on a first-come, first-served basis.

Policy context and background

2. To meet the challenges of the government's Industrial Strategy¹, a world-class skills system is vitally important. Technology and globalisation are transforming society and the workplace; the pace of change demands that skills provision must be responsive and relevant, while ensuring teaching and learning is of a consistently high quality.
3. The reform of the skills system, documented in the Post-16 Skills Plan², places employers at the heart of change. They must define the skills, knowledge and behaviours required for individuals to be recognised as occupationally competent and ready for skilled employment. However, beyond this, students need opportunities to learn, understand and experience how their skills will be used in practice, gaining an understanding of the contemporary workplace and how to operate effectively within it.
4. Industry professionals are well placed to develop this understanding because they will both know and understand the latest skills, techniques, approaches and equipment that set the standards within their respective sectors.
5. Given the wider economic importance of FE in raising skills levels and providing opportunities for young people and adults – particularly through the successful

² https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/536043/Post-16_Skills_Plan.pdf

delivery of T Levels and apprenticeships – there must be enough highly-skilled teachers in place to deliver high-quality, work-relevant skills training. Teacher recruitment and training of industry professionals is therefore already a priority, made even more urgent by current shortages of technical teaching staff in key sector areas.

6. As part of its support for FE teaching, the government launched Taking Teaching Further in 2018 to support FE providers to recruit high-calibre, experienced industry professionals to retrain as FE teachers, and to test how best to support an ongoing exchange between FE and industry. The programme has already run for 2 rounds between 2018 and 2020.
7. The programme will run for a third round from April 2020. The focus will be on supporting FE providers to recruit people with industry experience to retrain as FE teachers in teaching positions across any of the 15 technical teaching routes.
8. The guidance document sets out:
 - the context and ambitions of the programme
 - the process for participating in the programme
 - the criteria for the programme

Overview of Taking Teaching Further

Who is Route 2 for?

9. Taking Teaching Further is for all FE providers and there are different ways to access the programme depending on provider type. Route 2 of the programme is open to all independent training providers, employer led providers, third sector training providers, local authority providers, adult and community learning providers, 16-19 academy converters and university technical colleges. These places will be allocated on a first-come, first-served basis and we strongly advise providers to register early for places. The take-up of the Initial Teacher Education (ITE) places is subject to individuals meeting the participation criteria outlined on page 10.

Programme aims

10. The programme's long-term aims are to:
- raise the profile and prestige of skilled FE teaching, particularly among industry professionals; and
 - increase the overall number of skilled teachers in technical teaching roles by helping providers to support experienced industry professionals with the training that they require to become FE teachers.
11. Taking Teaching Further supports FE providers to bring in experienced industry professionals who can bring industry relevant knowledge to their teaching and institutions by: funding the costs training and reduced classroom time in the first year of teaching; and, providing advice and guidance to providers to support their participation in the programme. These recruits have the potential to improve outcomes for learners through their understanding of the latest skills, techniques, approaches and equipment that set the standards within their respective sectors.
12. For industry professionals, it is an opportunity to undertake a new challenge – supported by high-quality training – to make a career change and become a successful FE teacher, enabling the next generation to benefit from their technical expertise, skills and experience.
13. The industry professionals can be recruited to teach technical subjects based on any of the 15 technical teaching routes. However, Taking Teaching Further is not limited to those providers delivering T Levels, its aim is to support teaching in these technical subject areas.
14. Taking Teaching Further builds upon examples of excellence already in the FE sector, specifically enabling industry professionals to take up FE teaching

opportunities. We are already reviewing what works through the initial pilot rounds and will learn from more examples in this round.

15. Taking Teaching Further involves providers trialling new approaches where helpful, applying learning, perhaps from other sectors, and finding new, improved ways in which to recruit and retain industry experts into FE teaching.

Programme timescales

16. Round 3 will run from April 2020 to July 2022 with the vast majority of the funding needing to be drawn down by participating providers in the first financial year (by financial year we mean 1 April to 31 March).
17. Registration will be open from 1 April 2020, with places allocated on a first-come, first-served basis.
18. Each provider will be able to draw down up to three places.
19. Depending on initial uptake, additional places may be available at a later date.
20. The programme will generate evaluation evidence which will be used to help inform decisions about government's future plans.

Taking Teaching Further Route 2: Financial support for Initial Teacher Education (ITE)

21. We know there are a range of barriers for industry professionals seeking to enter the FE teaching profession. The financial support available to providers directly addresses the cost of undertaking ITE and helps to create capacity for new recruits to learn and receive training and support on the job.
22. Funding of £18,200 per recruit will be made available to cover:
- The full cost of undertaking a teaching qualification (a Level 5 Diploma in Education and Training (DET) or an equivalent/ higher level qualification) funded up to a maximum of £4,000 per trainee.
 - Costs of additional teacher time providing intensive support to new teachers (for example through team teaching/work shadowing arrangements) for up to 144 hours.
 - Costs to cover new teachers having a reduced teaching workload until the end of March 2021, up to 140 hours (following the period of intensive support).
 - There is an option to cover the costs of a new recruit taking a Level 3 Award in Education and Training (AET) before the Level 5 DET if a provider deems that to be more suitable for their new recruit(s). For this option 132 hours would be allocated to the reduced teaching portion.
23. The tables below set out in more detail the composition and expected spend profile behind the £18,200 unit cost for each of the two options. Please note – because a DET qualification takes two years to complete, the unit cost is split £16,200 in year 1 and £2,000 in year 2.

Level 5 and Level 3 option	Level 5 or equivalent Enrolment	Work shadowing/mentoring	Reduced workload	Level 3 Enrolment	Total
Year 1 (to end March 2021)	£ 2,000	£7,200	£6,600	£400	£16,200
Year 2 (to end March 2022)	£2,000				£2,000
Total	£4,000	£7,200	£6,600	£400	£18,200

Level 5 only option	Level 5 or equivalent Enrolment	Work shadowing/mentoring	Reduced workload	Total
Year 1 (to end March 2021)	£ 2,000	£7,200	£7,000	£16,200
Year 2 (to end March 2022)	£2,000			£2,000
Total	£4,000	£7,200	£7,000	£18,200

24. It is not a condition of this programme that ITE should be delivered to any specific model, beyond the minimum requirements that the qualification should be a Level 5 or higher, as well as qualification delivery being classroom based or blended learning, not solely online.
25. Participating providers will be required to sign a grant letter from the ETF. This will set out the specific grant conditions, monitoring arrangements and payment details.

How to participate

Registration process

26. Registration will be available via a link on the ETF Website:
etfoundation.co.uk/takingteachingfurther
27. Registration to the programme will be open from the 1 April 2020 and early registration is imperative as there are a limited number of places available. Up to three places will be available per provider and places will be allocated on a first-come, first-served basis.
28. Once registration has been received and processed, a grant letter will be issued to the provider from the ETF, along with an induction welcome pack with further information about the programme.
29. There may be additional places available at a later date. Information will be made available in due course if this is the case.
30. We welcome registrations to the programme from FE providers from all regions throughout England as we wish to ensure a strong geographical representation.

Participation criteria

Participating providers must meet the criteria outlined below.

Criteria
<p>The individuals recruited to teaching posts must:</p> <ul style="list-style-type: none">○ Be an industry professional – defined as an individual who has worked for a minimum of three years in their area of vocation and is, at the time of applying to become an FE teacher, still working in that same industry, or has been within the past 18 months;○ Be from within an industry which is covered by the 15 technical routes aligned to the T Levels routes (Taking Teaching Further is not limited to those providers delivering T Levels, its aim is to support these technical areas across all providers);○ Not yet hold a substantive teaching qualification, i.e. a Level 5 Teaching Qualification (DET) or equivalent/higher level teaching qualification;○ Be of suitable quality/calibre as determined by the provider's own recruitment process; and○ Not already be working within the organisation applying for the grant in a training/assessing/teaching post. <p>The provider must:</p> <ul style="list-style-type: none">○ Confirm that the post being recruited to is for a permanent, full-time position or part-time at or over a 0.5 FTE contract;○ Confirm that registration is being made by an independent training provider, employer led provider, third sector training provider, local authority provider, adult and community learning provider, 16-19 academy converter or university technical college;○ Confirm that the recruit will be undertaking a minimum of a Level 5 Diploma in Education and Training (or equivalent/higher level teaching qualification) as well as the delivery being classroom based or blended learning, not solely online;

- Confirm that all recruits will have started their Level 5 qualification by September 2021 and have completed by July 2023;
- Confirm that the total claim does not exceed £18,200 per trainee (for up to three trainees per organisation);
- Confirm that the budget only contains grant claims for up to £2,000 per recruit in the 2021-2022 financial year (to cover the second-year qualification fee or first year if deferred);
- Confirm that the recruits will be teaching technical subjects that align with the 15 technical teaching routes (Taking Teaching Further is not limited to those providers delivering T Levels, its aim is to support these technical areas across all providers);
- Confirm that the programme of support for the new recruits includes the provision of intensive support for the new teacher and a reduced workload, potentially combined with the costs of a Level 3 AET until March 2021;
- Confirm that senior leaders are committed to supporting the programme throughout its delivery; and
- Confirm they will rigorously select and support recruits to maximise the likelihood of retaining recruits.

Capital costs are not in scope for this funding.

All successful providers must meet the Business Suitability Criteria (please see the registration form).

Submitting your registration

31. Providers wishing to take part in Taking Teaching Further will need to:

- 1) Download the registration form as a separate document here:
etfoundation.co.uk/taking-teaching-further/
- 2) Submit a completed registration form to
takingteachingfurther@etfoundation.co.uk with registration open from 1 April 2020.
- 3) Sign and return the grant letter back to us within 2 weeks of receiving it.

Timetable

Activity	Date
Guidance issued	09 March 2020
Registration open	01 April 2020
Grant letter issued	Within 3 weeks of registration
Funding awarded & recruitment starts	Once grant letter signed + returned

Further information

32. If providers have any queries, they should contact ETF via takingteachingfurther@etfoundation.co.uk prior to submitting registration. We will aim to respond to all queries within three working days. All questions and responses (where appropriate) will be published on the Taking Teaching Further web page.

Management arrangements

Project initiation

33. All successful providers will receive a grant letter within 3 weeks of registration, along with payment schedule, pending any necessary approvals from the Department for Education (DfE, or department).
34. Return of the grant letter (signed) will signal the opening of the recruitment period.

Monitoring, impact and evaluation

35. There will be an evaluation process and providers will be expected to cooperate fully it, including any final reporting that may take place after the grant funding has ceased.
36. All providers will need a named project lead who will liaise with the ETF, the department and the evaluator. All projects will need to collect and provide the evaluator with agreed management information, which could include data such as attendance and progress records. The management information to be collected will be agreed with individual projects early in the Taking Teaching Further programme.
37. The project lead will also be asked to provide:
- 1) Notification to ETF when each teacher has been recruited to the programme
 - 2) Proof of recruits' enrolment for the teaching qualification
 - 3) Timesheets or similar for work shadowing, reduced timetables and other agreed support when completed (and proof of enrolment to the Level 3 AET qualifications where relevant).

4) Provide quarterly data returns

38. Should be prepared to discuss progress on a quarterly basis with ETF Project Manager
39. The ETF and, on occasion, DfE may also send colleagues managing the programme and officials to visit the projects and observe their delivery.

Terms and conditions of funding

40. Before registering, providers should ensure they have read and understood the grant funding agreement terms and conditions. These can be found here: <https://www.gov.uk/government/publications/grant-funding-agreement-terms-and-conditions>.
41. To participate in the Taking Teaching Further programme providers must agree to the grant funding agreement terms and conditions.
42. Any content produced be covered by the Open Government Licence. This means that DfE will retain copyright and intellectual property rights (IPR), but the ETF could use/reuse the material without payment.
43. In some exceptional instances it will be preferable to use a service contract to award funding to providers, but in all other cases we will be using grant funding arrangements.
44. A note on funding restrictions: due to government efficiency controls there are restrictions on certain types of activity that can be financed with public funds. This includes marketing, the development of digital services and consultancy.

Data protection and cyber security

45. Protocols will be in place for programme data handling (electronic and physical) in accordance with the data protection legislation. All project leads (and anyone else within the project who is required to store and/or share data from the project) will need to ensure appropriate security and password protections are in place for all servers, computers/devices, documents and software being used to host or share data. Back-up copies should be made and no project data should be shared with any organisation or participant outside of the programme,

unless express permission has been given by those concerned
(<http://www.et-foundation.co.uk/terms-of-usage/privacy-cookie-policy/>).

46. We will expect successful applicants to have all relevant cyber security software and internal monitoring checks in place. This will be reflected in the grant agreements signed with all project leads.

Equality, diversity and inclusion

47. The ETF and DfE are committed to equality, diversity and inclusion.
48. We expect each project to consider the equality, diversity and inclusion implications. We will ask you to reflect this in all outputs and reports.
49. It is important that all project participants, and in particular project leads, consider the varying needs of people with recognised protected characteristic groups in all aspects of project delivery.
