

## T Level Role and Route Specific Training

This element of the T Level Professional Development (TLPD) offer provides you with a personalised CPD journey created from a range of pedagogical and subject specific courses structured to meet your needs.

### Course: New Teacher Programme

#### Who is it useful for?

- New or less experienced teachers delivering technical education, who do not have a formal teaching qualification.
- Existing members of support or technical staff who have transitioned into teaching roles, part-time, specialist, unqualified teachers.

#### Course outline:

This course introduces new teachers to key concepts that will help develop their understanding of the ways in which we all learn, the breadth of the learner cohort found in technical education, and teaching strategies and planning methods appropriate to their learner cohorts. Three online courses will offer the opportunity to explore:

- What is Learning?
- Who are my Learners?
- How am I Going to Teach?

#### Study mode:

It is possible to study the content of this course both online and face-to-face\*. The two course options are similar but not identical and there is considerable benefit to attending both courses.

We recommend you complete the online course first to be better prepared for the face-to-face event. Although this is not mandatory, it will maximise the impact of your CPD activity.

- Online course (TLPD04): New Teacher Programme: What is Learning?  
Recommended six hours of self-guided learning.
- Online course (TLPD05): New Teacher Programme: Who are my Learners?  
Recommended six hours of self-guided learning.
- Online course (TLPD06): New Teacher Programme: How am I Going to Teach?  
Recommended six hours of self-guided learning.
- Face-to-face event (C0935): New Teacher Programme  
Four sessions, each lasting two hours.
- In-house training: you can request for this training to be facilitated in-house for your team as a group, either face-to-face or virtually. Please contact your [Regional Facilitator](#) for more information.
