

Apprenticeship Workforce Development

The Apprenticeship Workforce Development (AWD) offer, launched in January 2021, supports staff delivering apprenticeships with the teaching skills, subject knowledge and confidence they need for the benefit of their learners.

The AWD online CPD is available free of charge and allows trainers and leaders, once an account and profile has been created, to engage with the training when it is suitable for them. The offer is split up into eight courses across four strands.

There are four strands split into two courses each:

Assessor to Teacher

- Understanding How We Learn
- Developing How to Teach

It is recommended that you take the 'Understanding How We Learn' course followed by 'Developing How to Teach'.

The courses in the following three strands are stand-alone courses so can be taken independently of each other.

Effective Technical Teaching

- Enhancing Pedagogy and Professional Practice
- Preparing for End Point Assessment Success

Technical Curriculum Design

- Effective Curriculum Design in Practice
- Principles and Models of Curriculum Design

Apprenticeship Leadership

- Developing Your Team
 - Effective Use of Resources
-

Booking information

These courses are available to book through our [Professional Development Platform](#).

Cost

This course is funded by the Department for Education and offered at no charge.
