

How to join using the correct name

When joining the event from your device, please make sure your display name will match the name on your booking form. This will help us with the registration process.

We will do our best to identify you and assist you. If your name appears differently on your Zoom display to your booking form, this may delay your entry into the event.

Q. How do I enter or change my display name?

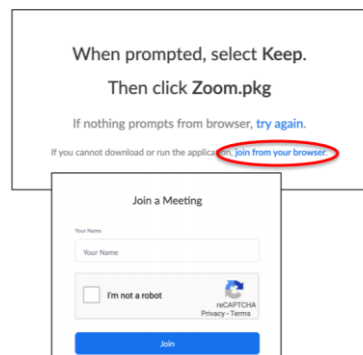

A.

If you need to change your display name in Zoom, follow these instructions

- If using Zoom in your internet browser (eg Chrome, internet explorer)

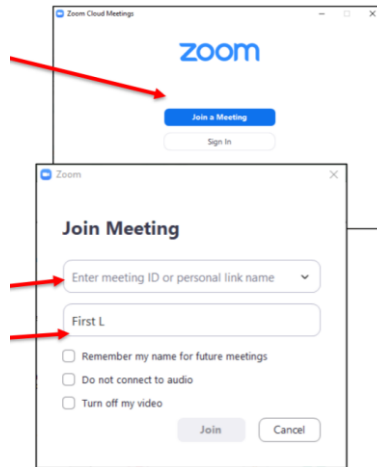

- Select “join from browser”
- Enter your full name as it appears on your booking
- Click the “Join” button and enter meeting password

- If using the desk top app. Open the app and click “Join a meeting”.

- Enter meeting ID
- Enter your full name as it appears on your booking
- Click the “Join” button
- You will then be asked to give the meeting password

If using an iPad, smart phone or tablet app. Open the app and click “Join a Meeting”

- Enter Meeting ID
- Enter your full name as it appears on your booking
- Click the “Join” button
- You will then be asked to give the meeting password
